

Omnisoul "The Reater You"

Visit "[The Reater You](#)" on MotoLyrics.com

Don't give up cause you have to fight
Show the doctors they're not right
You are not infected
You were just neglected
You can be a bright star
They will see who you are
You, only for you
Forget those nights
Oh you, only for you
Use this life right

Don't beg son
That will just delay love
So just wait son
Unexpected moments bring love
Patience makes your world much greater
The greater you

How can you say you don't feel loved
People stare with their mouths dropped
Every single note played touches them in a way
You are such a bright star
They can see who you are
You, only for you
Forget those nights
Oh you, only for you
Use this life right

Don't beg son
That will just delay love
So just wait son
Unexpected moments bring love
Patience makes your world much greater
The greater you

You were not infected
You were just neglected
You can be a bright star
They will see who you are
