You left me babe
You broke my heart
I see you around with this other guy
His body is full of lies
But you don't realize
At the end you're just going to lose it and wouldn't be
able to take it back
It's over now
So note that,

He'll never treat you right,
He'll never be your true love at night
No one can take my old spot,
Cause you and me that was one hell of a shot
So don't come back say you're sorry,
It's not the same as back then at the old town
When you had control over me,
Yeah this was back then at the old times
