i'm stuck here, stagnant till you find a way, hopeless
yet i cant give in
and you, lost everything that's your own, rejecting the
love you found
in me, in you, you
consuming
i can't find a better way to help you find a better way
so keep on consuming
and so i watch him as he runs to you, killing me while
fooling you
in this, game of charades that you play, i'm not in them
anyway
for you, for me, your
chorus
your bitterness, brings power unto me
this is my time fuck off
chorus
