

## OnceOver "Decadent"

Visit "[Decadent](#)" on MotoLyrics.com

the darkest hours gone, the clouds can roll back  
the dust has settled now, make way for sunlight

i can see the life, i can see the night

just a stones throw away, a decadent world without this  
visions i have made, in heart my thoughts always  
remember you

i can see the life, i can see the night

this is my heart, this is my way  
when all is said and done, i'll stand by you always  
if i could love you, for just one day  
then the world can all go away
