a pebble dropped into my head, annoying insignificant,  
with words come ripples there instead  
towering tidal waves, is it my turn to cry cast a cold or  
blind eye, to reality magnetized  
so take your pop-up books and blue prints in my head, i  
am not shaken i am not your  
gingerbread man, i am not your, gingerbread man  
mechanical comprehension make 14 shades of gray,  
with many numbers come many numb heads where  
ripples play, is it my turn to cry cast a cold or blind eye,  
to reality magnetized  
so take pop-up books and blue prints in my head, i am  
not shaken, i am not your gingerbread man  
chorus  
all i have is my  
all i have is my broken mold  
can not take away
