Can't live this kind of existence  
Why is there so much resistance?  
Come take my hand  
I try but I can't keep tryin'  
You can't catch a bird when it's flyin'  
It's time to land  
You're circling like a hawk on his own  
You're circling like a hawk on his own  
Born to be alone  
You don't take the love I show you  
Are you scared I may get to know you  
It's time to land  
You're circling like a hawk on his own  
You're circling like a hawk on his own  
Born to be alone  
I could fly away one day  
Maybe then you'll change your way  
Won't you let me capture you  
You're circling like a hawk on his own  
You're circling like a hawk on his own  
Born to be alone
