### "Man On The Run"

I used to know, where are you coming from  
This can't go on you've gotta stop  
Hiding or running away  
You're not my type I gotta say  
You're just a man on the run  
You're just a man on the run  
Playing with life having fun  
You're just a man, a man on the run  
I hope one day, you will wake up a man  
You can't go on, it's gotta stop  
Face what you've done, it's a shame  
Call off the game, I've gotta say  
You're just a man on the run  
You're just a man on the run  
Playing with life having fun  
You're just a man, a man on the run  
You're just a man on the run  
You're just a man on the run  
Playing with life having fun  
You're just a man, a man on the run  
You're just a man on the run  
You're just a man on the run  
Playing with life having fun  
You're just a man, a man on the run
