You're the reason that I'm lonely
You're the reason I'm so worried
You're the reason that I'm here now
You're the reason to beware of
You're the reason that I'm fighting
You're the reason of the letters I was writing
You're the reason that I'm here now
So just tell me where am I going?
You're the reason
You're the very reason
That I'm lonely
You're the reason I was trying
You're the reason I was crying
You're the reason
You said goodbye
Come to me and stay with me once more
Come and let us once again recall that
You're the reason
You're the very reason
That I'm lonely
