I used to know, where are you coming from
this can't go on you've gotta stop
Hiding or running away
You're not my type I gotta say

You're just a man on the run
You're just a man on the run
Playing with life having fun
you're just a man, a man on the run

I hope one day, you will wake up a man
You can't go on, it's gotta stop
Face what you've done, it's a shame
Call off the game, I've gotta say

You're just a man on the run
You're just a man on the run
Playing with life having fun
you're just a man, a man on the run
