We are here and we are one  
Our voice will give you praise  
All deserving Faithful One  
Our hearts cannot contain  
The joy that only comes from You  
Creator and giver of life

No more waiting  
No more living in doubt  
We are free to sing You are God, You are, You are God  
Love that's breaking and overtaking our hearts  
Causes all to sing You are God, You are, You are God

Take our pride and take our fame  
We give it all away  
For the glory of Your name, our hearts cannot contain  
The joy that only comes from You  
Creator and giver of life

The rhythm in my veins that beats new life  
The whisper in my dreams that calms my night  
The love that never turns it's back on me  
That is why I sing  
You are God, You are God
