Caged and oppressed
Their cries remain Supressed

Falling victim to human violence
Falling prey to human silence
Killing without necessity
This ignorance enraging me

Killing without necessity
Unrepentant

Killers of the innocent
Millions die with no real reason why

We consume to satisfy
We do not kill to stay alive
As a race we torture and we kill
In the name of a God given will

What reasoning is this?
Butchers, vivisectors
The killers should be killed
