[Hook - 2x]

These niggas scared (yeah)  
They scared (yeah), they scared (yeah)  
They scared (whoa)

[H.A.W.K]

Scared of the vocab, scared to give me dap  
Scared to pull up, on side of my slab  
Scared of this hard nigga, scared to pull a trigger  
I'm already big, so they scared I'll get bigger  
Scared cause I'm dedicated, and the fact that I'm  
motivated  
For those who playa hated, compliments are  
appreciated  
Your character's animated, to me you second rated  
To uncoordinated, and highly over rated  
I'm game affiliated, you hang with nerds  
You scared of my delivery, and the use of words  
I'm the shit you a terd, got action in verbs  
But you won't get served, unless you know the  
password  
They scared of the way, that I collect my funds  
They scared of the way, that I bust my guns  
They scared, cause I'm screaming at the top of my  
lungs  
They scared cause H.A.W.K won't bite his tongue

[Hook - 4x]

[Lil O]

They scared of the upper cuts, they man with puppy  
nuts  
Niggas with periods, playing games like dubble dutch  
And don't get your bubble bust, you scared of the heat  
When a wolf go to war, he never spare the sheep  
Its harder like this, kidnap your daughters and kids  
Find the names of the snitches, hit where all of em live  
Write his name on a bullet, cause all of em his

That fill em up like a pencil, its all in a bitch  
You scared of the wall, scared to get hit by the four  
If I make a call, your body parts hitting the floor  
I keep my money in the ceiling, and a brick in the wall  
I slap the teeth out your mouth, and stick dick to your  
heart  
How could you disregard, boy I hit too hard  
Like I won't mask up, and get with you boys  
Think I won't send my bud to your house, to get you  
broads  
Hooked up with some big guns, that rip through doors,  
they scared

[Hook - 4x]

[H.A.W.K]

Scared of the police, scared of a mouthpiece  
Scared cause my 16's, are hotter than fish cream  
Scared cause I showcase, when I rap over hard days  
Scared cause I'm the bomb, and I'm ready to detonate  
Scared cause I bring pain, reminiscing to who sang  
Just add propane, and I spit orange flames  
It ain't no game, I shield my rings  
No talking when I aim, a guerilla that's untamed  
Scared cause I'm the best, scared to contest  
Scared cause my lyrics, are harder than spanish tests  
I'm blessed with success, my skills are progressed  
And my thing in process, leave the weak minded under  
stress  
I strongly suggest, you change your address  
Pack up and head west, or settle for second best  
I must confess, I'm hard to digest  
Gun in my armrest, for easy access, they scared

[Hook - 4x]
