I want to kill myself
Yesterday woke again today
I want to live my life
Be myself
Right now I feel like
Nobody knows where I go please go
I want to be your life

Turn and run and find a place to hide
Leave me now before I...

Anywhere but here is not goodbye
Fuck the world we live in let it die
No-one seems to care so why should I
All the flowers inside my head have died
Fix me up on life I need a high
Now I see it all through tainted eyes
I can't face you when I'm

I wanna lose myself
In a place you'll find

Hope is the only friend I know

I hope you need me
Can you take this life
Save myself
Happiness comes to those who wait

I've waited here I'm tired
Turn and run and find a place to hide
Anywhere but here is not goodbye
Fuck the world we live in let it die
All the flowers inside my head have died
No-one seems to care so why should I
Now I see it all through tainted eyes
Fix me up on life I need a high
I can't face you when I'm
