This is a war, don't ignore, I can't go out from this
This is a war, don't ignore, I can't go out from this

So shitty, so mindless
Just waiting for when these words collide

Pray for mercy,
This is our last goodbye,
Just make no sense to laugh,
From happiness it makes me sick

Just take your weapon and aim to my head,
Just pull the trigger and blow my head off,

I keep telling things to you and they hurt inside tearing
your heart apart,
Never wanted to die alone

This is a war, don't ignore, you baby drive me crazy
This is a war, don't ignore, you baby drive me crazy

So sweetie, so priceless.
Just waiting for when these hearts collide
She's been so fucking so fucking heartless,
She has the power screw up my life,
I'm so fucking afraid, so please let me go

No second chance
No second chance

Nine

I keep telling things to you and they hurt inside tearing
your heart apart,
Never wanted to die

I was scared but I healed
I was scared but I healed
I was scared but I healed
I was scared but I healed
(Never wanted to die...)

I was scared but I healed
I was scared but I healed
I was scared but I healed
I was scared but I healed
I was scared but I healed
I was scared but I healed
I was scared but I healed
I was scared but I healed
