They scream, when I'm walking in the street
Everybody look at me, so what do you see
This is a worldwide screen, so come close to me

Just when you thought, we were gone! Whoa
We came up with this brand new song! Whoa
Just when you thought, we were gone! Whoa
We came up with this brand new song! Whoa

Closeness, where you get that
I wanna feel that, so where I get that

This is all I need,
Just help me breathe
If that's not enough,
Just cover me

Everybody everybody, singing for freedom
There are so many girls without love
Just take my hand and be with me
So let me feel that affection

They scream, when I'm walking in the street
Everybody look at me, so what do you see
This is a worldwide screen, so come close to me!

Hopefully you'll find the way
That makes your heart open again and again (x2)

This is all I need,
Just help me breathe
If that's not enough,
Just cover my heart (x3)
(All I need)
This is all I need,

Everybody everybody, singing for freedom
There are so many girls without love
Just take my hand and be with me
So let me feel that affection
My heart will move on
