His name is Mikey,  
And he makes me,  
Jealous in conversation,  
Jealous of all attention,

The girls all stop and stare,  
He pretends not aware,  
Of the girls who've already bought him drinks,  
He drinks up and goes upstairs,

So when he gets upstairs,  
The club it turns alive,  
Coz everyone knows,  
Mikey's dancing all night

He tries to act oblivious,  
To eyes that stare,  
He's got style,  
A contagious smile,  
Which he takes everywhere

Never ever seen with a girl  
Walking down the street  
He knows he can't stick with one  
So he'd rather stay discreet

You'll never see Mikey cry,  
Mikey give an evil eye  
Mikey ever become shy

That's why, Mikey is one of a kind,  
That's why, he's always on girls minds,  
Girls love bad boys and gents combined,  
That's why, Mikey is one of a kind

You may know guys like him,  
But no one will ever match up to him  
He turns heads, wherever he goes,  
With Armari smell and designer clothes

He's got money, and lots of it

And he spoils the girls with all of it  
A flash of the wallet is all it takes  
For a girl to be at his place

(Break)

I've seen it happen on many occasions,  
Doesn't take much persuasion  
One second they're drinking at the bar  
Then they're a passenger in his car

(Break)

You'll never see Mikey cry,  
Mikey give an evil eye  
Mikey ever become shy

That's why, Mikey is one of a kind,  
That's why, he's always on girls minds,  
Girls love bad boys and gents combined,  
That's why, Mikey is one of a kind

That's why, Mikey is one of a kind,  
That's why, he's always on girls minds,  
Girls love bad boys and gents combined,  
That's why, Mikey is one of a kind

That's why, Mikey is one of a kind,  
That's why, he's always on girls minds,

That's why, Mikey is one of a kind,  
That's why, he's always on girls minds,  
Girls love bad boys and gents combined,  
That's why, Mikey is one of a kind

That's why, Mikey is one of a kind,  
That's why, he's always on girls minds,  
Girls love bad boys and gents combined,  
That's why, Mikey is one of a kind
