autumn winds turns again, and the days are worn and  
start to fade  
all the tears still the same  
memories fall like rain  
the only world i know  
stedy as you go

its too easy , its too easy for you  
its too easy , its too easy for you

sinking in the sands of time  
miserable but ill be fine  
i burn a fire out by the air  
heavens on my side  
hell is here tonight  
no more endless cries

its too easy , its too easy for you  
its too easy , its too easy for you

autumn wind turns again  
and the days are worn and start to fade
