

One Side Smile "Radio On"

Visit "[Radio On](#)" on MotoLyrics.com

Turn the radio on for the waking
Conversation like both of us naked
I know you tried to keep me warm
But i gotta head out into the storm

So if you want me there turn the radio on
I know you know it's not me
At least it's a song
Well i'm packin' my bags
Gotta take this show on the road
So if you want me there turn the radio on

I know it's not always what it seems
And what it seems is not often what it means
So won't you help me at least for a while
To carry the load with a smile
