You're a few years overdue  
I spent them waiting here for you  
Now your charity's refused  
I can name a penance for abuse

Twenty four years overdue  
What kind of role model are you?  
Very least learn not to do  
I think I might be over you

Do hope I won't  
Learn to make  
The same mistakes  
That you would  
Make me aware  
That only fear  
My only hope  
Is letting go

Went on a limb for you  
Capsized when I turned twenty two  
Did it burn as bad for you?  
No bottle serves to soothe my wounds

Do hope I won't  
Learn to make  
The same mistakes,  
That you would  
Make me aware  
That only fear  
My only hope  
Is letting go  
My only hope  
Is letting go

My only hope  
Is letting go

You're a few years overdue  
I spent them waiting here for you
