"Shotgun"

It's a shotgun

I think I'll use it tonight

It's a shutdown

I've got you in my sights

It's just a shadow

It can't come to life

But it's the shadows

They're quickest with the knife

If I was a robot, would you love me anymore?

If I wore a mask would you know?

It's a contract

We're gonna make you sign

It's your choice now, maybe

But you could die tonight

It's a whisper

When your ears are blind

It's a scream

We don't want your kind
