From a distance  
I hear them call  
For you  
and For me  
for everything they see  
on a mission  
losing their minds  
for love  
and for hate  
for freedom they can take  
the decision  
you go along  
and give up your life  
to fight for what went wrong  
and u no  
that I no  
that u wont come back again  
and u no  
that I go  
but I use myself in it  
I would wait into the summer  
and into the winter  
I?ll wait for you  
I will  
ill hold onto u tightly  
and wait for you nightly  
ill wait for you  
in the twilight  
hours pass slow  
the minutes roll by  
as summer turns to snow  
I decided im not that strong  
I couldnt grow up  
and fite what I no iz wrong  
and u no  
that I no  
that u wnt come back again  
and u no  
that Id go  
  
but Id lose my faith in it

I wait into the summer  
and into the winter  
I'll wait for u  
I will  
I hold onto you tightly  
and pray for u nightly  
I'll wait for u  
la da da da da da  
I wait into the summer  
and into the winter  
I'll wait for u  
I will  
I'll hold onto u tightly  
and pray for u nightly  
I'll wait for u  
I will  
I wait into the summer  
and into the winter  
I'll wait for u  
from a distance I hear them call  
for u and for me and for everything they see  
on a mission  
losing their minds  
for love  
and for hate  
and for freedom
