[Intro]

This joint goes out to everybody that don't know me  
For all the people that never downloaded my music  
Never came to the website, Never seen us at a show  
This is for you...  
(Check this out)

[One.Be.Lo]

This is an introduction in case I never knew ya  
I'm One.Be.Lo no one's cooler, not a tongue smoother  
You didn't know, well now you know how me and son do  
ya  
You must be sleepin' like a lullaby what's up to ya  
See ever since the One Man Army was a young trooper  
I put the Kung Fu ya, transform to gun shooter  
The one who'd make this rap business run smoother  
Run to you like Jerome, place your bets, it's on  
I'm in the zone, rap's tall, dark and handsome cat  
Groupies, we handle that like a camelback  
You got a plan to stop the man, you better cancel that  
You want the mic back, where the hell's the ransom  
at?  
Give up them pesos when I'm in the place, yo!  
I represent like Johnny Cochran, case closed
