And every couple of months you die
And every answer a dozen lies
I'm feeling better in ready time
I never tried
It always works
It's hard to leave
It's better to burn
I want to bury it
And every couple of months you die
A lot of waiting, a lot of crying
And your just hoping that you'll be fine
And every couple of months you die
I never tried
It always works
It's hard to leave
It's better to burn
I want to bury it
Everywhere is someone else's (x4)
I never tried
It always works
It's hard to leave
It's better to burn
I want to bury it
Everywhere is someone else's
