I do my best / to find some kind of glow
I'm givin' it some heart and soul, now
From the darkest grays
The sun bursts clouds break
Now we see that fire
From the streets of Babylon
To the road that we've been on now
The kaleidoscope flames in color

Chorus:

Whoa oh-oh oh
(Well) this is life in color (color)
Today feels like no other (other)
From the darkest grays
The sun bursts clouds break
Whoa oh-oh oh

(Well) this is life in motion
Just when I couldn't run this race anymore
The sun bursts clouds break
This is life in color

You've seen my worst / Yet you see some hope in me
The black and white sh-- goes free
.....[unclear].....
Your decision was a sure thing
Honey got a sho' thing
So why do I feel / like I'm missing a heavy load?
No matter what day life brings to us
I said we both know
[Chorus, repeated]
Life in color
Whoa oh-oh ohh
