I'll tuck you in
Make sure the noose is tight
Moving from side to side
It invicts your will to fight
I'll hold you always
Clipping your wings away
Laughing at your dismay
Till your end is crowned

Hold you always, beauty in your eyes
Escape to your world.....please
Believe in this love affair
Electing your silenced pleas
Comfort all your fears
I'll hold you always
Clipping your wings away
Tying you up this way
Till your end is crowned

Hold you always, beauty in your eyes
Escape to your world...please
Hold you always, beauty in your eyes
Tying you up this way
Clipping your wings away
I'm holding you always
I'm clipping your wings away
Don't you wish you could fly, well come close the end is
near

Hold you always, beauty in your eyes
Escape to your world...please
Hold you always, beauty in your eyes
Escape to your world...please
