Fists Packed and Back to back we stan togethr ready
for the worst
So many friendships tried and tested fell to lesser
tasks
and with this love i give you trust covered in blood and
caked with dust just lift me up if i should fall when this
night fades to black

Hold my heart
Ill take your fear
My life my blood
My soul my tears

I will carry you when you cant carry on
I will carry you when you cant fuckin carry on

Stand tall
Have faith
this bond
wont break

LOVE YOUR FRIENDS
