The gates of hell have opened wide with deadly speed
the metal it strikes
A fork of light rains from the sky To feed the amps with
power supply
Killerwatts to be unleashed we'll show no mercy bring
you to your knees
Hit the switch the power's free it'll blow your ears &
make you mutha's
scream
CHORUS:
Onslaught...Power from hell
Power, power, power, power from hell

With the wrath of Satan in our minds we take the stage
to play for our lives
When the power racks hit overdrive the banging heads
they look toward the sky
Thrashing metal savage screams yeah this is hell it's
not just a dream
Hammers pound at breakneck speed to crush the souls
of those who disbelieve
CHORUS
