Ooh baby

If I could touch it, baby, I'd make you proud
I would do anything to make you my lady now
I wouldn't hurt it, baby, won't let you down
And once I get in it, you'll never wanna let me out, babe

Here it comes, so brace yourself baby
And let it flow all through you and me
I'll make you love, love so deep
Here's what will happen when you get with me

I'll love you by day, and love you by night
Love nice and slow, baby, won't let you go
Love you by day, and love you by night
Love lets you know, baby, when you're in love

If I could hold you, baby, hold you real tight
I would relax you, girl, and make you feel extra nice
But if I could roll with you, baby, you know I'd roll you all
night
Give you my love, my all and all and then I'd lose
control, baby

Here we go, so ask yourself, baby
Let me know is this what you need?
And can you love me, baby, love so sweet?
Here's what could happen if you were into me

I'll love you by day, and love you by night
Love nice and slow, baby, won't let you go
Love you by day, and love you by night
Love lets you know, baby, when you're in love
Yeah

I'll love you by day, and love you by night
Love nice and slow, baby, won't let you go
Love you by day, and love you by night
Love lets you know, baby, when you're in love

Love you right, hold you tight
Love you till the morning light, let's love baby

Come on, come on, come on, come on
Come on, come on, come on, baby

Love you right, hold you tight
Love you till the morning light in love baby
I'm gonna love just let me love you
Please let me love you

I'll love you by day, and love you by night
Love nice and slow, baby, won't let you go
Love you by day, love you by night
Love lets you know, baby, when you're in love
