

## Cryptic Slaughter

### "Dreadnought"

Visit "[Dreadnought](#)" on MotoLyrics.com

Plowing through the oceans water at night  
Spreading fear me the king of the sea  
Turning my turrets searching for prey  
Unleashing firestorms turning night to day

I dread no one only my kind  
Searching the oceans for victims to find  
A floating fortress no one equals me  
The Dreadnought king of the sea

Forged by man constructed to kill and to rule the sea  
Warbeast armed to kill and no one can kill me

Enemy spotted aimed and tracked  
The captain commands and I react  
Turning turrets now they are facing death  
The worst day they ever had  
Firing spitting my deadly load  
See them burn see them explode

You are trying to answer my fire but you can't hurt me  
I am the god I am the king of the sea  
I am the Dreadnought proud for everyone to see  
A piece of shallow prey that is what you are for me  
The king of the sea...

I left em all drowned in the sea  
Not even a challenge to me  
Floating away my head held high  
For me the ocean for god the sky...
