And so we meet here again, old friend ? welcome back
to your journey's end
Here at the keep of all darkest nights ? where the
source of your sorrow lies

All your nightmares ? only worse ? have become bitter
truth for your infected mind
And nothing could save you from torture and grind ?
slowly fading ? from your world
No more spring will thaw your frozen heart anymore ?
forever, forever, not anymore

Uncertain stumbling through the haze ? thousand eyes
staring at your face
A savage unintortured chase ? don't expect any help
from grace
How that the gleam of your eyes went out ? your
frightened glance betrays rising doubt
About what soon is to come for you ? bad fate, you can
rely onto

Guardians of nightfall, lead me behind ? the borders
I'm loosing for the peace to find
Never meant to be a sinner in religious ways ? "why the
hell no one hears my prayers"
Portals of nightfall, open your front ? and grand me
entrance to the world beyond
But please don't forsake my death ? yearning soul -... I
hear the demons of embers call

Unbearable the burden gradual becomes ? drags me
down the maw, and deeper down below
My corpse aglowed a long time ago yet ? while passing
through the chambers of the dead
There are no words to define all this dismay ? nothing
you have known is destined to remain
When I made you inhale my toxic breath ? for I am the
everlasting death

Portals of nightfall, open your front ? and grand me
entrance to the world beyond

But please don't forsake my death ? yearning soul -... I
hear the demons of embers call

Just take a look around you my son ? and be aware of
the shades to come
Then you forget what the bible taught ? consolation in
rain be sought
So this will be your true fate, old friend ? welcome back
to your journey's end
Here all the keep of all darkest nights ? where the
source of your sorrow lies

All your nightmares ? only worse ? have become bitter
truth for your infected mind
And nothing could save you from torture and grind ?
slowly fading ? from your world
No more spring will thaw your frozen heart anymore ?
forever, forever, not anymore
