Can you remember the times I tried to hide?
Soft is this slumber as I'm dreaming of your eyes

We'll stand on top of the world
And nothing can stop us tonight

Are you the one who I will spend the rest of my life?
As I recall the times I may have caused you strife

And I admit it these feelings just aren't right
This is beautiful and I don't want to get out

With life, it's all about finding the truth
The further we go, I find myself in you

And I admit it these feelings just aren't right
This is beautiful and I don't want to get out

And I admit it these feelings just aren't right
This is beautiful and I don't want to get out

This is beautiful and
You are beautiful and
We are beautiful and
You are beau-ti-ful
