I know you gotta leave at times
But I just can't let you go
Cos when you're not around I feel so lonely
My heart feels cold
Can't understand how I lost myself so quick
When I'm reluctant to give in
Because this thing called love doesn't usually agree
with me
But with you it is

Lately I've been feeling crazy
But my friends, they don't seem to mind
They can see we got a good thing going
Understand we're one of a kind

I wanna wrap my arms around you tight
I wanna hold you close
I wanna spend the night to wake up next to you
I wanna hold you close
And when those times get tough and you need
someone
I'm gonna hold you close
Cos you just take my breath the way you do
I wanna hold you close

Mmm I wanna hold ya
Mmm I wanna hold ya

I feel it when you're not around
I can't seem to concentrate
And all the things I once held so dear to me
I'm beginning to cave
So I am giving you the key to my heart
I don't need no other man
Cos if I were to lose you I would find it so hard
No one can love ya like I can

Lately I've been feeling crazy
But my friends they don't seem to mind
They can see we got a good thing going
Understand we're one of a kind

I wanna wrap my arms around you tight
I wanna hold you close
I wanna spend the night to wake up next to you
I wanna hold you close
And when those times get tough and you need
someone
I'm gonna hold you close
Cos you just take my breath the way you do
I wanna hold you close

I wanna hold ya
Mmm I wanna hold ya (hey hey)
I wanna hold ya
Mmm I wanna hold ya

I wanna wrap my arms around you tight
I wanna hold you close
I wanna spend the night to wake up next to you
I wanna hold you close
And when those times get tough and you need
someone
I'm gonna hold you close
Because you just take my breath the way you do
I wanna hold you close
