I want to fire guns I am the one you dread  
I will keep on firing until you are fucking dead  
Warmaster bringer of pain  
Locked and loaded killing is the game  
You will wish you'll be dead I will bring war to you  
Aiming and firing that is all I will do  
A fully armed nightmare panzerbeast  
A one man army on your flesh I will feast

You will disintegrate  
I will dominate

I got the killer instinct kingsize balls  
I am living attitude can walk right through the walls  
Pussies leave when I'm in game  
No balls at all fucking lame

Yes you got it right you will go down tonight  
Go back home to your mom son  
Back in that heap of shit you came from

If you think you can beat me son you better think again  
If you want to have a chance better bring all your  
friends  
I cannot be defeated and I really hate to say  
You and your friends will go down this is not your  
family's day

Cause I'm the worst you've seen bad and mean  
Flak gun wizard killing machine  
Perfect assassin god of war  
Never to stop mean and raw  
Gatling ticking bombs detonate  
Bringer of death ambassador of hate  
Flak gun firing blood splatters around  
You in the defense your master you've found
