The fairy-tales from long ago
Speak of this dreamlike paradise
The winter's cold and storms of snow -
Three lives the magic Queen of ice.

She has no mercy, feels no pain,
Cold beauty of the past
But charm and mystery remain -
The story that will last

You must come with me
There is so much to see -
Winter night's scene
Ruled by the Ice Queen

It always snowed before the storm
But only One has truly seen
The place that never would be warm -
The eyes of cold and proud Queen

And captured by her deadly charms
He looked into her eyes
Then as he fell into her arms
She whispered quiet lies...

You must come with me
There is so much to see -
Winter night's scene
Ruled by the Ice Queen
