I'm gonna love you tonight
You turn me on so relaxed
Tell me are you ready for a stormy
Crazy love
Come on closer baby
Don't be afraid, we're all alone
I'm gonna keep you warm
All night long
It's gotta happen baby
I'll make things start
It's natural, boy
I gotta lay you down I know
I need to feel the fever
So come on in & lock the door
Cause I'm the girl
Who's gonna love you so right
I'm gonna make you sweat
Drive you mad, all the way
Until the tears roll down onto your smile
Lift me up above
Bring me to this everlasting love
To the skies above, fly me like I dove
Cause baby you're the one
That I really love
I'm not in a hurry
So take your time my love & slow down
I love the way you're movin'
Between my tighs
You got me goin' up & touch the sky
You're makin' me fly
Don't close your eyes
Look into mine
And tell me do you see the fire inside
I gotta tell you, hey boy
You are the sun of my life
I'm gonna love you and cuddle, baby
Until the tears roll down onto your smile
Lift me up above
Bring me to this everlasting love
To the skies above, fly me like I dove
Cause baby you're the one
That I really love
