Do you wanna get a little something
Baby now what's on your mind
I wanna know now yeah
Everybody in the house is jumping
And I can't spend all my time, with you
Nobody can do the things you do
And I'm so glad that you wanna be mine
But I think you gotta be
A little easy loving me
I'll never stop
Give what I got
All in the way that I love you
Doesn't have to be all or nothing baby
Don't you know I'm never gonna waste your time
Can't you see the way that I feel
Got to believe
I wanna be
Your number one
If you want it face to face
I'm gonna tell you baby
If you want it face to face
You gotta know what I need
If you want it face to face
I'm gonna give all my life to you
I gotta live for the party all night
But I don't want you to go
Don't wanna be on my own
Now I'm gonna have myself a good time
And I need you to say
Baby it's alright to feel this way
Doesn't have to be all or nothing baby
Don't you know I'm never gonna waste your time
Can't you see the way that I feel
Got to believe
I wanna be
Your number one
If you want it face to face
I'm gonna tell you baby
If you want it face to face
You gotta know what I need
If you want it face to face
I'm gonna give all my life to you

If you want my lovin' baby
I'm gonna give it all to you
If you want my lovin' baby
This is what I say, yeah
If you want it face to face
Take my love this way
If you want it face to face
Baby it's OK
If you want it face to face
This is what I say
If you want it face to face
If you want it face to face
You gotta know what I need
If you want my lovin' baby
I'm gonna give all my love to you
If you want it face to face
I'm gonna give it all to you
If you want it face to face
Nobody does the things you do
