If U're tired of livin' life in complication
Well get on up &
Take control of the situation
Don't U sit & cry the blues
Cause only U can do for U
Do U hear what I'm sayin'
It's time U make room for a new attitude

Out with the old, in with the new
Don't mess around here's what U do just - move on
Out with the old, in with the new
Don't mess around here's what U do just - move on

Now if U know U're givin' all U've got to give
So busy makin' a livin' that U ain't got time to live
& it's drivin' U insane
Well only U can make the change
So get up & do it
Do what U choose, U've got nothin' to lose

Out with the old, in with the new
Don't mess around here's what U do just - move on
Out with the old, in with the new
Don't mess around here's what U do just - move on

Are U satisfied livin' a life just gettin' by
Elevate your mind
Set your goals high as the sky
It may be true that what goes up
Eventually comes down
But what goes around it comes around
So catch it on the rebound

And all about that excess garbage in your life
Start pickin' it up, it's cleanin' up week & don't waste
time
Now U know U've had enough
Ain't U tired of all that stuff
Listen to me now set it outside !
And let the garbage man pick it up

Out with the old, in with the new
Don't mess around here's what U do just - move on
Out with the old, in with the new
Don't mess around here's what U do just - move on
