Boy U've been away so long
Funny but our love's still strong
When it's good it keep U hangin' on & on inside

Ain't no big thing no it ain't no crime
I know U love cuz U tell me all the time
That's the only thing that eases my mind
When U're gone
Keeps me inspired

Sending out my love
Get a message through
Got a heavy thing for U

Can't stop missin' U
All I wanna be is kissin' U
Can't U feel me wishin' we were
So together baby
Can't stop hopin' time will fly
& we'll never say goodbye
& forever we will be
So together U & I

Every night I say a prayer
That in the morning maybe U'll be there
& U're never gonna go nowhere again
For the rest of my life

Sending out my love
What else can I do
Got a heavy thing for U

Can't stop missin' U
All I wanna be is kissin' U
Can't U feel me wishin' we were
So together baby
Can't stop hopin' time will fly
& we'll never say goodbye
& forever we will be
So together U & I

Like a burnin' in my heart
I'm callin' out your name
U made my fire start
Now get into the flame
U came into my life
I'll never be the same
But baby it's alright

Sendin' out my love
Get a message through
Got a crazy thing for U
What else can I do

Can't stop missin' U
All I wanna be is kissin' U
Can't U feel me wishin' we were
So together baby
Can't stop hopin' time will fly
& we'll never say goodbye
& forever we will be
So together U & I
