[words: It ; tunes: Night]

Listen to the old owl who's shrieking as the final
bellman Nature seems
Dead and wicked dreams abuse Thou sure and firm set
earth hear not
My steps which way they walk For fear thy very stones
prate of my
Whereabouts Stars hide your fires let not light see my
desires For they
Are black and deep as death itself I have murdered
sleep and therefore
Shall sleep no more Never again shall sun that 'morrow
see

The sentinel of the night He's haunting me forever
The eternal walk The endless pain and suffering

Forever hunting me in the night The eternal darkness
Endless misery Witchcraft celebrates Pale Elishias
offerings and
Wither'd murder Alarmed by his sentinel the wolf
Whose howls his
Watch My beloved mistress in crime now your hands
are red as mine It's
A filthy witness of our crimes Come thick mist and pull
thee in the
Dankest smoke of hell Let not my knife seen wound it
made

My miserable which way shall I fly infinite wrath and
despair Which
Way I fly is hell myself am hell And in the lowest deep a
lower deep Still
Threatening to devour me opens wide To which the hell
I suffer seems a
Heaven How art thou lost how on a sudden lost
Defaced deflowered and
Now to death devote Is it the nights predominance or
the days shame That
Darkness does the face of earth entomb When living
light should kiss it
