### "New Machines And The Wasted Life"

Visit "[New Machines And The Wasted Life](#)" on MotoLyrics.com

Life is cruelty  
Life is cruelty  
We all feed on each other  
Exploit each other in some way to survive  
Life is cruelty

If you found the sun in me  
Would you make me work until I died  
Would you count the times I laughed  
Would you count all the times I cried

New machines and the wasted life  
New machines and the wasted life  
New machines and the wasted life  
New machines and the wasted life

Life is cruelty  
We all feed on each other  
Exploit each other in some way to survive

If I found the sun in you  
Would you use it just to get your way  
Would you use my broken back  
Would you break me every day

If we found the sun in us  
It would never be the same  
We would never have to break  
We would never feel such pain

New machines and the wasted life  
New machines and the wasted life oh yeah  
New machines and the wasted life  
New machines and the wasted life

New machines and the wasted life  
New machines and the wasted life oh yeah  
New machines and the wasted life  
New machines and the wasted life
