Darkness,internal  
Lost souls,helpless cries  
Insanity,a dream  
The path to death is free  
Endless torment of battered feelings

Morbid thoughts elude the brain  
Voices persist in rage  
Alone inside a world of pain  
Lost within the mind  
Confined in an array of fear

Memories fade away  
Mental powers under siege  
As i lay dying inside

Nightmares,haunting  
Mentality restrained  
Confliction imprisons  
The beast inside me  
Memories fade the hate  
Of thoughts once known

Dying inside
