"Kingdom Of The Dead"

Visit "[Kingdom Of The Dead](#)" on MotoLyrics.com

Hearing the voice of a thousand lies
Blindness is vision through a thousand eyes
Portal to dimensions of distant cries... cries

Bodies burning, selfish yearning lust for flesh
An undiscovered spiritual journey of bloodshed

Welcome... To the kingdom... Of the dead

Through this darkness ancient evils now arise
Into the veins of creation they now writhe

Suffer... withing the passion of the hatred that you
breed

Rejoice... upon the fields of the sorrow that you breathe
Bastards... of the creation through the whores that they
are born

Never... seem to feel the pain of lives which they
deform
