To pick up where you had fell
To tell stories you should not tell
These things we know so well
Though faith has a way with words

We can't do always what is right
Less know when to pick our fights
And although we may be frightened as hell

[Chorus]
We can't let go now
Don't let go now
When you're easily thrown down
You're not the only one

[Instrumental]

Remember when chaos is spinnin' over us
We're together though we've found ourselves lost
And these things move to stop us dead
We're not tied to our heads

What do you find when you lose your nerve
In a sense we'll sense what we deserve
Just know I'm by your side, I'm by your side

I can't let go now (can't let go)
I won't let go now (won't let go now)
I need you to know now (need you to know)
You're not the only one
Who can't let go now (can't let go)
When you're easily thrown down

Don't let go
Don't let go

When the mood is out escapin'
Deep into the swell
When white light can't help us
Swim up to safer sound
When there's someone out there somewhere

Who wills us to stretch outâ€¦!

We can't let go now (can't let go now)
Don't let go now (don't let go now)
When you're easily thrown down
You're not the only one (oh)
Who can't let go now (can't let go now)
Though you're easily thrown down
You're not the only one
