#### VERSE 1

I've started with a temptation to hi jack a plane and  
crush into white house station. The public look  
aggressive in devastation I did it because the research  
team just gave me some new medication. I assasin the  
owner of a jewelery shop grab my suitcase sell it illigal I  
indirectly don't listen to the laws I make the result to  
them I'm just a outlaw. I do a tv ad make the whole  
broadcast system hypnotized and make a slogan to  
drink alchol while your driving in your ride leaning on  
the edge of a bridge with the nails holding it stable if  
you wanna live re-act real fast.
