

Orange Light "Cake"

Visit "[Cake](#)" on MotoLyrics.com

Wake up, tell us straight
Why's everything so great
I'm sleepin away all these sleepless days
I know it all will fall In place
You wanna see what's in my mind
Though it might be hard to breathe inside
I'm so glad that we made it
I just wish it was our time

[Chorus]

Now I can't wait to be in my
California coma
It sure would be nice
For everything to be alright

I know you love good news
But all I have is bad
The tricks and the jokes were clear to show
That weve all been had
Now I've gone door to door
And where I've looked so bored
And I know less now than ever before
In the morning she bakes her face into a cake
Hot enough
We all melt away

[Chorus]

Weve got to find our way out

[Chorus]
