[Chorus]

Stella, oh stella  
You kill me, you kill me  
Stella, oh stella  
You kill me, you kill me  
Stella, oh stella  
You kill me  
And baby I'm on fire

Hey baby I'm bout to come unglued  
I got this strange desire and it's all I can do  
I grab a hand of gold  
And it's all sunshine  
Can't you tell I can see this appetite is divine  
I know you saw me waitin down at the gates  
This poor little lady, uh, breakin my face  
I'm drownin in this, I'm out on the wire  
Come down here darlin, and light my fire

[Chorus]

These flames kiss my lips  
And I'm feelin so used  
You left me on my knees  
And it's got me confused  
Watch me now you'll love the way that I die  
You burn me up, and I'll get my taste of the sky  
So here you come, I'm countin down the days  
This hot summer sun is goin out in a blaze  
My body's cookin away, I'm blushin a red  
I gotta feelin soon you'll be loosin your head

[Chorus x2]
