I hear the voice of the wicked
On the Radio transmitted
Step right up and take your ticket

To Paradise a better life

I see on the television
Was just like sheep on a mission
Trying to win the audition

Telling Lies day and night
Oh Why...
That's the way the story goes
Yesterday and Tomorrow

Everybody needs a religion
But some kinds make a decision
Leave it up to a politician
Telling Lies day and night

I hear the voice of the wicked
On the radio transmitted
Step right up and take your ticket

To Paradise a better life
Oh Why...
That's the way the story goes
Yesterday and Tomorrow

[Guitar Solo]

Would never trust a politician
Their just like sheep on a mission
Would never trust a politician
Their just like sheep on a mission

Would never trust a politician
Their just like sheep on a mission
Would never trust a politician
Their just like sheep on a mission
