

## Orba Squara "My Favorite Song"

Visit "[My Favorite Song](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Hey man, youre singing my favorite song  
Hey friend, youre bringing back better times  
Hey there, you know just what to say  
Hey kid, thats just what I needed today

Hey la da da, thats how you sing along  
It aint what you say, but more how you make it sound  
And tell yourself you make it sound so lovely

Some may you read my mind now  
And some may say you got the rhythm down  
And some may say you know what Im thinking  
But everyone will say

Hey man, youre singing my favorite song  
Hey friend, youre bringing back better times  
Hey there, you know just what to say  
Hey kid, thats just what I needed  
Hey man, youre singing my favorite song  
Hey friend, youre bringing back better times  
Hey there, you know just what to say  
Hey kid, thats just what I needed today

You know all the words, or else you can make em up  
A song for your love, or when you are breaking up  
It wouldnt be vain to think that this song is about you

Some may you read my mind now  
And some may say you got the rhythm down  
And some may say you know what Im feeling  
But everyone will say

Hey man, youre singing my favorite song  
Hey friend, youre bringing back better times  
Hey there, you know just what to say  
Hey kid, thats just what I needed  
Hey man, youre singing my favorite song  
Hey friend, youre bringing back better times  
Hey there, you know just what to say  
Hey kid, thats just what I needed today
