War and sex has an intimate connection, seeing that
the outburst of war
extends the collated amplitude and variation of sexual
activity amongst
the affected populations

The military state of affairs likewise furnishes the
opportunity of
homosexual relations to a greater extent to that of
foregoing peace and
serenity - necessity knowing no boundaries or
limitations

An additional connection ascertains that war is
customarily accompanied
by an appending increase in promiscuity and sexual
offenses amongst the civilian populations

War transcends ethnic limitations and extends the
foregoing practice of
sexual intercourse with the female residents of the
vanquished region,
customarily by means of rape and molestation

Sister shall rise against sister; Brother shall rise
against brother
And all over the world, people shall rise against each
other
Sister shall make love to sister; Brother shall make love
to brother
And all over the world, people shall make love to each
other
