Somewhere in Germany in a moment of misery  
I think about liberty and the end of the world  
Somewhere in Germany I think about Italy  
Of friendship and ecstasy and the end of the world

I give myself to me  
And think of what's to be....

Somewhere in Germany in a moment of tragedy  
I think about history and the end of the world  
Somewhere in Germany I think about Italy  
Of moments in ecstasy and the end of the world

I give myself to me  
And think of what's to be....

Somewhere in Germany in a moment of victory  
I think about tragedy and the end of the world  
Somewhere in Germany I think of whats dear to me  
Of moments in Italy and the end of the world

I give myself to me  
And think of what's to be....
